

Cardiac Screenings

Hosted By

SAN CLEMENTE HIGH SCHOOL

TRITONS

Cheyne is a SCHS Student
SAVED by a previous Heartfelt
screening.

Cheyne's Story

"As luck would have it, the day Cheyne our 13 year old club soccer player came home and told me she was the fastest girl in her PE class, was also the day we found out that she had a hole in her heart that would require open heart surgery to repair. It was the best decision of our life to have Cheyne screened via a Heartfelt screening and we are eternally grateful."

Heartfelt

CARDIAC PROJECTS

Non-Profit Organization

Cardiac Screenings

Open to All Schools, Parents & Friends

Saturday, May 16th

Stop Sudden Cardiac Arrest! (SCA) Have Your Player & Family Screened

A Young Athlete Dies from **SCA** Every 3 Days

SCA is the #1 Killer of Women

SCA Kills 450,000 Annually

ECHO & EKG SCREENING

The echocardiogram (ECHO) & electrocardiogram (EKG) are the best tools for detection of the risks of sudden cardiac death. These tests typically cost \$1,500 and are usually not covered by insurance. Heartfelt Cardiac Projects is teaming up with **San Clemente High School** to offer cardiac screenings for a **donation of \$85** to offset costs of assessment. This is not a fundraiser. It is a non-profit service to the community.

Early Detection Can Save Your Loved Ones

Screenings are painless, quick & easy, takes only 15 minutes.

Cardiac Screening

Saturday, May 16th 8am-1pm

San Clemente High School

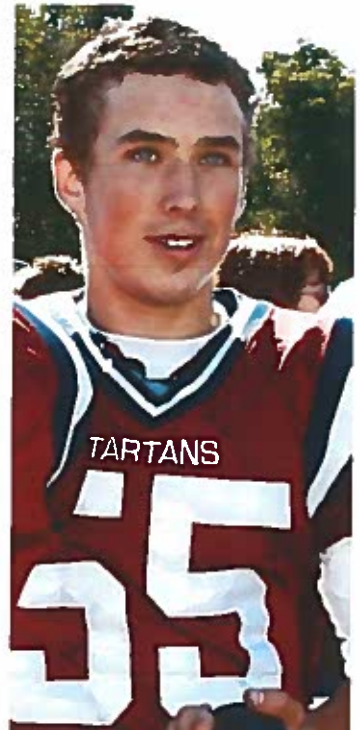

Screenings in the Small Gym

700 Avenida Pico, San Clemente, CA 92673

Zack's Story

Zack participated in the Heartfelt cardiac screening program this past fall at St. Margaret's, which turned up a heart problem in this otherwise healthy, active, athletic, 14 year old. Zack's family is grateful for the program knowing that it can actually prevent a horrible tragedy from occurring.
